CHURCH CHATTER.

The Methodists of Russellville are preparing to build a new church to cost \$13,000.

Eld. Joseph Ballou will preach at the Christian church here next Sunday at 11 o'clock.

Princeton Theological Seminary has graduated 4,500 students for the ministry, of whom 2,537 are now living.

Dr. David Morton, one of the foremost men in the M. E. Church, South, died from blood poison, following a splinter wound.

The Salvation Army has 737 corps in the United States, 2,450 commissioned officers and have had 60,000 conversions during the past year.

At Bowling Green \$1,200 has been raised to build a tabernacle and Dwight L. Moody will hold a meeting in the city in April to help raise the balance.

The Senate at Washington passed the bill appropriating \$288,000 for the relief of the Methodist Church, South, of Tennessee. It had already passed the House.

D. L. Moody writes for special prayer for the eight days' mission to be held March 13-20 in the Grand Central Palace, New York. The building will seat 7,000 and is located in the heart of a population of 3,000,000.

During the year ending a few days ago the ladies missionary society of the Methodist church raised and paid out for foreign missions \$148. Besides this they have expended nearly that amount in helping the needy of this country.

The Register says that Uncle Joe Hopper's meeting at the Presbyterian church had resulted in 18 additions to Monday and the organization of prayer meetings by both the young ladies and the young gentlemen of the congregation.

Last week at the Carlisle Christian church revival five peace officers marched in with five prisoners and after the usual services all were baptized. Following the baptism they went away to serve out terms in the penitentiary.

The whole number of ministers of every denomination in the United States is 139,232; whole number of churches, 184,824; whole number of communicants, 22,919,602; The additions to all the churches in this country in 1897 were 630,951.

The officials of a church at Muncie, Ind., have requested the female membership of the congregation to remove their hats during services. The women say they'll see 'em dead first. They go to church to show their bonnets and they are not to be foiled in that way.

The Methodist Year Book for 1898, is out and its showing is not gratifying to our Methodist brethren. The increase in number is only 19,738, as against 65,131 the year before, and as against 157,586 in 1894. What is the matter with the Methodists? Are they losing their old time fire and becoming so fashionable that they are losing their power?—Baptist Recorder.

At the Hall Street Methodist church Lexington, Sunday, several church officers informed Singer Overstreet that his presence in the choir was repugnant and that he must not appear there. It made him very mad and he is said to have cursed the spokesman, who let loose on him with a stick while the women screamed and fainted. Since then the war has been going merrily on in the newspapers in the shape of cards from each side and the end is still not in sight.

The Wire Trust is now practically completed. It will represent a capital of \$50,000,000 and an annual production of 1,000,000 tons of steel wire. Of course the combination starts with the usual talk of a "reduction of prices," though steel wire is protected by a duty of 40 per cent. in the Dingley tariff.

The commissioners appointed by Gov. Bradley to arrange for the launching of the battleship Kentucky have decided to go to Newport News to the launching on a special train, which will leave Louisville March 22, at 1 p. m. The governor and his staff will go in full uniform.

Commander W. H. Brownson has been ordered by Secretary Long to leave for Europe and inspect the warships offered for sale to this government.

Robert McMichael member of the State board of equalization, is dead at Lexington, and another member, A. R. Dyche, of London, is reported to be down with varioloid.—Louisville Times.

The county of Henderson has contracted to have its 444 miles of dirt road kept in repair for \$4,146 per year.

Bath county toll gate raiders are making things hot over there. Several gates were destroyed Tuesday night. The search-light at Sandy Hook is the largest in the world and will throw its beams 200 miles on the sea.

There are 3,064 languages in the world, and its inhabitants profess more than 1,000 religions.

John Courtort, a Louisville man, suicided at Memphis by shooting himself in the mouth.

LANCASTER.

Deputy Collector Thomas Austin has been to Estill county on official business.

The preliminary trial of Whittaker, for the murder of Grady, was passed until next Saturday.

The scarlet fever proved to be in a mild form and the children, who had it, are all about well again.

Messrs. David Ross, J. A. Burnside, John Walker and James Clark are attending the tobacco sales at Louisville.

I was at W. H. Traylor's on Tuesday. There is more business done there than in an ordinary village, and it should be named Traylorville and have a post-office.

The social given by the ladies of the Christian church on Wednesday night was largely attended and was a season of perfect enjoyment. The music was especially attractive.

W. T. West received his commission as postmaster and Tuesday next, 15th, has been selected as the day when he will take charge of the office, that being the time when Mr. Hamilton's term expires.

Mr. T. B. Robinson is in Frankfort and his friends have suggested that he would make an excellent prison commissioner. If he wants it we would all be delighted to have him chosen and we will insure the faithful discharge of his duties.

Mrs. Margaret Bland, aged 80 years, a sister-in-law of Miss Betsy Bland, who was murdered by William Austin, who was hung for the offense, died on Tuesday. The burial took place at the family burying ground, three miles from town, on Wednesday.

In view of the death of Mrs. Frances E. Willard, so long president of the W. C. T. U., memorial services will be held in the Christian church on the evening of the 20th. All the ministers and their churches will take part in the exercises, which will be very impressive.

When we consider the fact that Kentucky has been carried twice by fraud and corruption, the election bill is not far wrong, but comes more in the form of a necessity. We must fight the devil with fire and he frequently appears clothed in republican costume. Severe measure are sometimes necessary, in politics, as in war.

Mr. Isom R. Merriman, a prominent business man, aged 55 years, died at his home in Versailles on Tuesday. The remains were buried at Paint Lick on Wednesday, where he had many friends and relatives, he having been raised in that vicinity, from which place he moved 30 years ago. He was an uncle of Mrs. T. J. Hammond and Misses Mollie and Inona Douglas, of this city.

Mrs. Tabitha Hughes, aged 84 years, widow of Mr. Tharp Hughes, died at her home near Marksburg on Wednesday. The remains will be buried at the Fork church to-day, Thursday. Deceased was born and lived her entire life at the place where she died. She was a member of the Christian church, a devoted wife and an affectionate mother. She had a host of friends and relatives, some in Lincoln county, all of whom mourn her departure.

The accommodating disposition of the K. C. Railway officials was manifested the other day, when an old lady, flagging the train at a small station, told the conductor that she wanted to send a dozen eggs to Richmond, and only had eleven, but the old blue hen was on the nest and would soon lay the other, and she wanted him to wait a few moments. The conductor kindly consented and the cackle of the hen was the signal for the train to pull out.

A prominent republican in this town says that this administration is pledged to the freedom of Cuba, and that, if they do not act at once, the republican party had as well disband. He says that if the Maine was destroyed by a Spaniard, or Spaniards, not acting officially, Spain should no more be responsible for it than the city of Lancaster should be responsible for the act of a Negro on "Battle Row," which is in our city limits. I concur with him in giving Cuba her freedom from Spanish oppression, but we do not need the territory except as a home for our Negroes, and we surely do not want the Cubans as citizens of our nation. We have enough of that kind. Many of our people do not believe that we will have war.

The House by a vote of 311 to 0 passed the bill "That there is hereby appropriated out of any money in the treasury not otherwise appropriated, for the national defense and for each and every purpose connected therewith, to be expended at the discretion of the president, and to remain available until June 30, 1899, 50 million dollars."

The Senate also passed the bill, 76 to 0, and it was immediately signed by the president.

A Mr. Stedding man writes from the Klunkike that he could make more money working in Kentucky at \$1 a day than he does there.

SMALL-POX SCARCE AT JELlico

JELlico, March 9.—In the INTERIOR JOURNAL of the 8th, it is reported that there has been three deaths from small pox here. It seems that the outside world, even within a few miles of us, can not report a truthful statement about the small-pox scare here and surrounding country. The truth is we have only had six very light cases on the Tennessee side and few more on the Kentucky side, and at no time have there been any deaths from it or even a severe case. Each side has pest-houses out of town and the patients are removed to them, and all suspects are properly guarded. There is no danger of any more contagion as the people generally have been successfully vaccinated and all legal steps have been taken to stamp out the disease. The business of our town has been greatly injured by false reports, and we have to depend on the press of the country to give us a truthful report and place us in proper light before the world. The reports are circulated and the press publishes them and they are read all over the country, when the facts are that at no time has there been a case too sick to miss a meal. H. G. COOK.

That this letter comes perforated and fumigated is evidence that others, besides the newspapers, think that danger lurks in the twin cities, which they do not wish to spread abroad.—Ed.

DANVILLE.—John W. Moore, formerly of Danville, died March 4th, at Pleasant Hill, Mo., after having been in bad health for some time. The deceased was 58 years old and leaves a widow and one son.—Curry, Bohon & Co., of Harrodsburg, have bought a lot at Junction City and will shortly erect upon it a three-story building to be used for a wholesale grocery.—E. W. Lee arrived home Saturday morning from Atlanta, where he had been handling mules. He sold over 1,000 on commission. Mr. Lee says prices were about as good as usual, but there were not quite as many sales.—B. G. Fox & Rice have just shipped to Atlanta a car of horses which they bought at \$50 to \$125.—Advocate.

That government seed is used solely for electioneering purposes by Senators and Congressmen, the following from Bill Lyons, Deboe's private secretary, is shown in the Maysville Public Ledger: "Please distribute these seed to the friends of Senator Deboe in Mason and Bracken counties. Do not want any to go into the hands of any one who is fighting him, or is in sympathy with those who are doing so."

A burglar at Cleveland jumped into the river to escape arrest and was drowned.

THE INTERIOR JOURNAL

STANFORD, KY., — MAR 11, 1898

W. P. WALTON.

THOUGH every preparation is being made for war by getting all the gun boats in trim, buying ammunition and appropriating money for coast defenses, there will hardly be any conflict. Spain can not afford to fight this country. She is poor and impoverished from the continued efforts to keep her subjects subdued and is in no wise able to cope with this government. The celerity with which she withdrew her demand for Gen. Lee's recall and the stoppage of relief supplies to the Cubans, when she saw how this government viewed the matter, shows that she is ready and willing to come to any terms demanded. The unanimity with which both branches of Congress passed the bill to appropriate \$50,000,000 for coast defenses and the speeches thereon by ex-Confederate as well as Federal soldiers show that this country is practically united in maintaining the honor of its flag and holding Spain to the strictest account, if she be proved to have even remotely caused the wreck of the Maine and the killing of most of her gallant crew. Gen. Lee is proving every day that he is the right man in the right place and further adding to the glory of his illustrious name. When told of the demand for his recall, he said: "Spain may declare us all persona non grata, but if we leave Havana it will be with a brass band playing and the American flag flying."

It is said that the board of inquiry has already found that Spain is to blame for the Maine disaster, but owing to the excited state of the country, and the fear of hasty action by Congress, the report will not be given out for several weeks. Coolness and conservatism is to be the watch word and certainty of being right, before going ahead the motto. There is little necessity for excitement and it will develop that the Jingoes who make the most noise will be the last to smell gun powder, if they ever get their carcasses close enough for that.

SINCE the Courier-Journal adopted the INTERIOR JOURNAL's lead in printing half tone pictures, perfect likenesses are presented and friends of the unfortunates who get their prizes in the paper can recognize them at once. This method of illustration is purely mechanical and the effects are most satisfactory. When first invented they could be printed only on the highest calendered paper and on slow presses. By coarsening the lines and other changes they are now printed on the fastest presses and on ordinary newspaper. As no paper makes impression can be taken of the half tone, however, it is much trouble to make ready to print them on papers which have to print from cylindrical forms and the extra time occasioned costs against their general use. The Courier-Journal is always up to snuff, however, and if any paper can give half tones satisfactorily, it will be sure to do so.

BINGHAM, of Pennsylvania, sang the only discordant note, when the bill to appropriate \$50,000,000 for coast defenses, was before the House. He declared that friendly relations existed between this country and Spain and that he saw nothing especially commendable in the course of Gen. Fitzhugh Lee. For this he was roundly hissed, both by democrats and his own party, but even after his tirade he didn't have the gall to vote against the resolution, which passed unanimously.

THE Louisville Commercial's editorial page does not keep up with its news columns. Monday the former contained an article showing the unconstitutionality of the McNord bill and arguing that it could not be enforced when the Legislature had already come to that conclusion a week before, after Gov. Bradley had used his axe on the bill with force and effect.

MCKINLEY has been in a year-to-day. Are you any better off for having voted for him?—Stanford JOURNAL, March 4.

Don't ask us!—Richmond Climax. Nobody asked you, sir, she said. The question was propounded solely to so-called democrats, who stultified themselves.

WE are glad to see the report that Editor A. R. Dyche, of London, was down with the varioloid is denied. It bore the odor of its own improbability on its face. Brer Dyche is too tough a citizen to be downed by the varioloid. A genuine case of confluent small-pox could hardly get away with him.

THE Louisville Times says that the homicidal tendency is a disease which should be treated as such. Certainly. Hempen neckties with the rope drawn taut above is an infallible remedy and has been known to cure many a case.

WE acknowledge with thanks receipt of invitation from Gen. D. K. Collier, chief of the governor's staff, to go on the governor's special train to the Kentucky battleship launching, which we will very certainly accept if we can get off.

THE Harrodsburg Sayings, which has at all times seemed to be ready to accept anything and everything which had the stamp of free silver democracy upon it, has kicked out of the traces for once and in a three-column article pours hot shot into the election bill, which it says will cause the democrats infinite trouble and from which they are certain to reap a crop of deep despair. The Louisville Dispatch and two or three other imitations seem to be the only friends now of the dangerous measure.

THE Kearsage, a twin of the Kentucky, will be launched at the same time, but nobody seems to be making any fuss whether she is doused with champagne or common every day water. There has been much ado about nothing concerning the Kentucky, but it has made her the best advertised warship that ever ploughed the ocean.

A DISPATCH from Frankfort last afternoon said that the Goebel election bill passed the Senate at 3 o'clock over Gov. Bradley's veto and commissioners were to be chosen last night. We very much fear that the law will prove a boomerang to the democratic party, but will hope for the best.

SPEAKING of government by injunction, what's the matter with some Federal court forever enjoining newspapers from setting matter in columns wider than 13ms pica? Matter set two or three columns wide is as repulsive to the eye as it is hard upon the optics to peruse.

POLITICAL POINTS.

The president nominated William J. Calhoun, of Illinois, to be interstate commerce commissioner.

There is a hitch in the transfer of the office of Surveyor of the Port at Louisville, because of the faulty bond of Mr. Barnett, which was returned for correction.

President McKinley says: "The government at Washington seeks no war. The first overt act must come from the government at Madrid. I shall try to do my duty regardless of what people say."

Secretary Sherman says: "As far as the United States government is concerned, it is no just cause to declare war against Spain. Nor will it, until it is plainly shown that Spain has committed some overt act."

THE LEGISLATURE

Mr. Orr's railroad assessment bill was rejected by the House.

The Senate passed the House bill requiring railroads to carry bicycles as baggage free.

The Advocate speaks editorially of President McKinley as "that fellow in the White House."

The Senate passed Mr. North's bill abolishing the office of register of the land office. It had already passed the House.

It is announced that the governor will veto the dental bill on the ground of its unconstitutionality, and likewise the anti-osteopathy measure.

Morgan Chinn's bill to repeal the charters of those State banks, which do not accept the ad valorem system of taxation, passed the House 61 to 18.

The House bill raising from \$100 to \$200 the amount authorizing an appeal to the court of appeals was passed by a vote of 16 to 12. This is also one of Mr. North's bills.

Democrats of Bourbon county held a mass-meeting and protested against the Goebel bill and urged Senator Thomas and Representative Hinton to vote against its passage over the governor's veto.

Bronston did not succeed in defeating the effort to shut off debate on the election bill; a resolution having been introduced by Senator Farris at the instance of Senator Goebel to that end. It carried 20 to 14.

The Dispatch's Frankfort correspondent has this to say about Lincoln county's representative: "Mr. North has introduced more bills than any other member looking to the reduction of expenses, and has made a record in the House as an economist."

Gov. Bradley vetoed the bill to gerrymander the eighth Congressional district and the bill to compel the Associated Press to sell news to any newspapers that demand it. The grounds for both vetoes are that the bills are unconstitutional.

The democratic caucus nominated Henry George, of Graves county; Jas. M. Richardson, of Harrison county, and Edward Fennell, of Harrison county, for members of the Board of Prison Commissioners. T. M. Goodnight got 7 and T. B. Robinson, of Garrard, 13 on the first ballot. Only five ballots were required.

Senator Farris had the nomination of Dr. O'Neal for State board of health held and recommended to the committee because he alleged that the doctor claimed to be a democrat and voted for McKinley. He further said that the doctor had been accused of unprofessional conduct, which he would state, but for the presence of ladies, and that hardly a doctor in Lancaster would consult with him.

The nomination was afterwards confirmed.

CAR BURNED.—A sleeping car of the work train which was lying at Rowland burned yesterday morning, having caught from a lamp which it is thought exploded. All the bedding and clothes were consumed.

A MONTH ago Tilden Singleton, who clerks for F. M. Ware at McKinney, picked his teeth with a broom straw, a piece of which got between two jaw teeth and he could not get it out. It bothered him a good deal, but the trouble ended Wednesday night by it working sufficiently through the cheek to be pulled out.

LEAD ORE.—Mr. B. F. Lunsford, of the Preachersville section, has found on his farm several pieces of lead ore, which an expert has informed him is 85 per cent. pure. It is claimed by some people that a lead mine was once operated in the Preachersville vicinity. There are several Indian mounds on Mr. Lunsford's place.

VEST THURMAN swore out a writ against Willis Helm, also colored, for striking him on the head, and Constable Peyton arrested him Wednesday. He gave bond for his appearance at his trial before Judge Bailey Saturday. Thurman shot twice at Helm during the trouble and it looks like he will get the hot end of the trouble.

THE State board of health has declared a small-pox epidemic at Middlesboro, and all persons are prohibited from entering or leaving the city. Five new cases were reported Tuesday. A friend at our elbow says he wishes that order had prevailed in 1892, when some fellow with more sense than he, unloaded that miserable lot on him at more a foot than land is worth an acre now in that ex-magic city.

SOME time ago Rev. R. R. Noel bought two dozen Plymouth Rock chickens of H. J. McRoberts and gave them to his daughters, who took great care of them and who expected soon to make money out of them. Man proposes and God disposes, though, and to their sorrow Wednesday morning they found that 16 of them were gone, evidently stolen by some worthless cuss who ought to be doing time at Frankfort.

LOW RATES.—The L. & N. will sell round-trip tickets to Louisville on March 15 and 16, good returning on the 19th, at one fare, \$3.05, on account of the people's party convention, and to Old Point Comfort on March 22, good returning 29th, at \$13.25 for the round-trip, on account of the launching of the battleship "Kentucky." Those contemplating attending the christening will oblige Agent J. S. Rice by informing him that he may secure tickets, &c.

UNTIL the small-pox quarantine is raised at Middlesboro, Col. W. F. Sheridan tells us that Nos. 23 and 24, the day passenger trains, which ran to Middlesboro, will run no further than Corbin. The through express trains go by Jellico and will continue as usual.

The mails will be taken to and from Middlesboro by freight, which will not be permitted to stop. Under a penalty of a fine of \$50 to \$500 no one is permitted to come in or go out of the stricken city.

THE situation at Middlesboro is a little brighter in regard to the small-pox epidemic, but great trouble is now found in supplying the 80-odd persons in the pest houses with food. A gentleman from there yesterday told us that the town had donated all the money it could afford to and that the people had responded to the call for aid so often that they declined to give further, the fiscal court of the county has refused to meet and make an appropriation, and it is not improbable that the inmates at the pest houses would be turned out to care for themselves.

THE five or six days of remarkably fine weather have made much plowing possible and put gardeners to work. It being the light of the moon Irish potatoes were planted by a great many, while those who love the aromatic onion planted him for business. In an experience extending over a great many years, however, the writer has found that in this climate vegetables seeded after April 15 do fully as well as those put in the ground while it is cold and before the freezing snaps are over. Dr. Hicks seems not to have foreseen this spell at all and instead predicted storms of unusual severity about this time.

CIRCUIT COURT.—David Guest, who shot Bill Tucker at Crab Orchard, was triumphantly acquitted as he should have been. Guest is a democratic Negro and proved that Tucker had frequently taunted him with having sold out to the democratic sons of—. That the entire jury were democrats was only a coincidence. Any other decent jury would have found for defendant and thrown in a chromo besides. For carrying concealed weapons, however, Guest didn't get off so lightly, being given the usual fine and imprisonment sentence, the latter, being suspended for 30 days.

In a speech to a jury this week, Fontaine F. Bobbitt in defending one Negro for breaking another Negro's head, said: "The greatest wrong that has been done the black man in this country was depriving him of the protecting care of a kind master, and casting him far out upon the Ocean of Freedom, which he had not nautical skill to navigate." 'Tis no wonder he lost his bearing and was shipwrecked upon the coast of Ignorance. Poor Negro you are as much a slave as ever and get less for it.

Among the indictments found at this term is one against the L. & N. for failure to provide a water closet at the Stanford depot.

For several years the Keeley Institute has been paying taxes to the town of Crab Orchard without being in its limits. A suit to make the town refund the \$200 illegally obtained will be tried today.

The court allowed Judge R. J. Brockinridge a fee of \$1,750 in the case of Carnal's Exor. vs. Thomas McRoberts.

Will Blakely was indicted for the murder of Cato Crenshaw and his trial, at his request, set for to-day. Hon. R. C. Warren will defend him.

E. R. Clifton, who forged checks on W. L. McCarty, was indicted. He has been non est since the charge was brought last fall.

The grand jury got after the violators of the liquor laws with a sharp stick. They found 16 indictments against P. W. Green for unlawful selling and selling on Sunday, four against Carter Appa and three against J. H. Carter, while several other saloon men caught it for one or two.

The grand jury finally adjourned yesterday, after being in session eight days and finding 59 indictments. The judge thanked them for their good work and ordered that each be paid \$16.

The case of R. S. Webb & Co. vs. G. T. Timberlake occupied the court two days and ended in peremptory instructions for plaintiff. Judge Geo. Denny, of Lexington, is one of the company and was represented by Col. W. G. Welch and Hill & Alcorn; the defendant by Hons. R. C. Warren and Harvey Helm. The suit was over the sale of a hemp break and is for about \$230, the defendant claiming that he bought it under false claims of its superiority.

The court will adjourn finally tomorrow.

MT. VERNON.

The physicians are kept busy vaccinating old and young. No case of small-pox yet.

The Ladies' Aid Society met with Mrs. M. C. Williams this week. This band of ladies do much good work for the church.

Mr. Will Cox is cultivating a large field that is rich and valuable. It lies in the heart of town, belongs to Mr. J. J. Williams and is worth about \$1,000 per acre.

The missionary services were well attended at the Christian church last Sunday and after an excellent sermon by Bro. Bassett the collection amounting to \$30, was taken up by the deacons, Messrs. Williams and Poynter.

Strange to relate there are persons who are still trying to have licensed saloons here. Judging by the attendance and interest manifested in the temperance meeting Monday night the majority of the people are opposed to such a movement. Yet it is said that 25 signatures were obtained to a paper which was circulating recently asking that license be granted.

Miss Fannie McClure won the medal in the recent contest. The judges were Mrs. Martha Pennington, Miss Kate Moore and Miss Lena Newcomb. The second prize was awarded to Miss Florence Mullins. The other speakers were Miss Mary Pease, Jack Adams, Jr., Edgar Mullins and Miss Garlie Davis. This being the close of Mrs. Nesbitt's select school, she invited the young people to remain after the contest and a pleasant hour was spent in a social way.

The Matrons' contest on last Monday evening was a highly enjoyable affair. The exercises were opened with reading and prayer by Bro. Ira M. Boswell followed by a song with Mrs. Mit Miller, Jr., organist. First recital was "Sisters on Strike," Mrs. Rosalind Nesbitt, followed by "The Rumeller's Story," by Mrs. Lucy Woodall. Mrs. Mary Smith recited "No Licensed Saloons" and Mrs. Martha Pennington, "Who Will Roll the Stone Away?" After these recitations, which were received with applause, Bro. Boswell entertained and instructed the large audience with a temperance talk that was replete with wit, humor and pathos. If all spoke as forcibly for temperance as does this noble man of God, "King Alcohol" would soon be banished.

Mr. J. J. Williams is recovering from a severe illness. Miss Mamie Miller is visiting in Lancaster. Mrs. Rice Haverly has returned to Indianapolis after a pleasant visit home. Miss Alza Logan Brown is home from Midway. Mrs. Ann Poynter is quite ill. Miss Mary Miller is visiting her brother, Maxie Miller, at Austin, Texas. She was accompanied as far as St. Louis by her brother, Hugh Miller. B. J. Bethurum was seriously ill but has about recovered. Miss Sallie Cook is the guest of Miss Florelle Brown. Miss Fannie McFerran is the guest of her brother, Robert McFerran. Little Russell Proctor was seriously hurt by a rock striking him on the head; the rock having been thrown from beyond some cars which were on the track near his home. Miss Ida May Adams is home from Danville on a short visit. Mrs. L. M. Scroggs has been quite ill for some time at the Miller House.

C. Bishop sold to E. J. Haley, of Somerset, a two-months-old Shorthorn bull calf for \$40.

Lyon & Allen shipped from Greensburg this week a car load of hogs they bought in Adair county at 3c.

A. W. Carpenter bought of J. M. Vanneter, of Boyle a registered Short horn cow and calf for \$150.

Disease

can be driven in or driven out. Dr. Ayer's Sarsaparilla drives disease out of the blood. Many medicines suppress disease—cover it but don't cure it. Dr. Ayer's Sarsaparilla cures all diseases originating in impure blood by purifying the blood itself. Foul blood makes a foul body. Make the blood pure and the body will be sound. Through the blood Dr. Ayer's Sarsaparilla cures eczema, tetter, boils, eruptions, humors, rheumatism, and all scrofulous diseases.

"Dr. Ayer's Sarsaparilla was recommended to me by my physician as a blood purifier. When I began taking it I had risings or boils all over my body, but one bottle cured me. I consider Dr. Ayer's Sarsaparilla the best blood medicine made."—FONNER CRAFT, Wesson, Miss.

PERSONAL AND SOCIETY GOSSIP.

DOC DRYE is quite sick at W. L. Evans'.

MR. ED WALKER, of Garrard, was the guest of Mr. J. C. Hays.

MR. AND MRS. J. G. BURNSIDE, of Garrard, were here yesterday.

MR. AND MRS. ROBERT CHAPPELL, of Lebanon Junction, are at Mr. J. W. Adams'.

MRS. SALLIE GASTINEAU, of Versailles, is visiting Col. and Mrs. W. H. Dudderar.

MR. AND MRS. JAMES A. BEAZLEY, of Lancaster, were here this week to see his brothers.

MISS DORA STRAUB left Wednesday for Tullahoma, Tenn., to engage in the millinery business.

MRS. J. S. RICE is back from a protracted visit to her parents, Dr. and Mrs. Garnett, at Cave City.

R. W. LILLARD, who has been ill for months at the Joseph Price Infirmary, was up town yesterday, but looking very weak.

MR. TOL CROW and family are at R. H. Crow's. Mr. Crow has moved from Fayette county, but is not yet decided where he will locate.

ELD. A. C. NEWLAND is gradually growing weaker and can not at best last very much longer, his son, Mr. H. P. Newland, informs us.

J. F. WATERS, who shot himself in the foot some weeks ago, was well enough to come home from his mother's in Boyle yesterday.

MR. JAMES WALKER GIVENS is back from Lexington, Miss., where he did fairly well trading. He was detained several weeks by illness.

GEORGE D. FLORENCE, deputy postmaster, is down from the effects of vaccination and the old stand-by, John W. Rout, is again in the post-office.

SOME 12 or 15 Lancasterians, including Miss Alie Marksby and Howard Rice, attended the Simpkins show. Of course Letcher Owsley was in the crowd.

STANFORD's little beauty is thus mentioned in the Lexington Leader: Miss Mary Elkin, of Stanford, is the charming guest of Miss Mae Bright, of West Second street.

MR. W. R. GOOCH, our McKinney correspondent, was before the grand jury yesterday to tell what he knows that he hasn't had printed, which latter ought to be enough for any purpose.

C. E. TURNER, of Christiansburg, Va., is here to sell a most useful book to the farmers, the Progressive Agriculturist, by which they can keep an accurate account of all farm operations, with little trouble.

POSTMASTER-ELECT W. T. WEST, of Lancaster, was here Tuesday and secured the services of our ex-postmaster, Mr. John W. Rout, to assist him for awhile in his office. Mr. W. will take charge Tuesday.

SPEAKING of the visit of Mr. and Mrs. A. H. Severance, the Climax says the bride seems as happy as a bird and brings back the same smile and sunshiny disposition that linked so many friends to her in girlhood days.

P. C. JESSEE, general agent for the Ky. Growers and Central Fire Insurance Cos., of Lexington, was here Tuesday with local agent, Harry C. Baughman. He reports good business for both of the above companies.

WINFREY BARNETT, son of G. B. Barnett, who joined the U. S. Army about four months ago, writes his father from New York that he has been ordered to be in readiness in the event war is declared. The young man is very anxious for a battle.

THE Musical Club had a delightful meeting with Mrs. Lee Huffman last evening. There was a program of very fine selections beautifully rendered by Miss Owen, Miss Williams, Miss McGarvey, Prof. Blanton, Mrs. Scott and Mrs. Huffman. A dainty chafing dish supper was afterwards served. Lexington Leader.

OLD HORSE.—Ed Snow, the highly-prized family horse belonging to Mr. W. P. Tate, died the other day and the family is all broken up because of it. Mr. Tate bought him when a colt nearly 30 years ago.

TO THE LADIES.—Messrs. A. B. Robertson & Bro., the extensive Danville dry goods merchants, have a special announcement to the fair sex in this issue, which they will doubtless read and profit thereby.

OUR books are in J. C. McClary's hands and he will be glad to receipt those who wish to pay their accounts. It is not our intention to sue any one, but our accounts must be settled within the next few weeks. M. S. & J. W. Baughman.

FOR disorderly conduct at a church at McKinney the following Negroes were arrested: Oscar Singleton, Adam Trice, Bill Tate and Bud Masterson. The latter two gave bond for their trial before Squire Coffey at McKinney Monday, but the two first named could not do so and were lodged in jail by Constable T. G. Nunnally Tuesday.

THE Register says that 64 people and corporations in Madison pay taxes on \$20,000 and over. Col. J. W. Caperton is the largest individual taxpayer, his assessment being \$74,800, T. D. Chenaunt coming next with \$74,430. Hon. John D. Harris is omitted for some reason. He was the largest taxpayer last year.

THE Joshua Simpkins Co. gave a fair entertainment on the stage and an unusually good one in the orchestra. The skin game that the management worked with the after concert racket, for which an extra 10 cents was charged, was entirely without the previous knowledge of the Opera House managers. They would have kicked right then and there, but as no one was forced to stay, they decided to let it go. Usually companies play on shares, but this rented outright and therefore had things their own way. Hereafter, however, one admission will cover all the show of one night.

A TRICK THAT WAS VAIN.—A few weeks ago, we received a letter with the money in it for a notice that J. L. Vanstine would be at the Myers Houses March 7-9, to purchase the surplus wheat in the county. It bore the Stanford post-office stamp and we thought rather strange that if such a man was in town he hadn't called at our office. The ad. was inserted and on the first and second days named, nearly every man in the county, who had been holding his wheat for \$1, was in to see Mr. Vanstine. But he never showed up, nor did he have a representative. That it was a fake is now plain, and the Baughmans think it was an effort of an interested party to force them to pay more for wheat this. It is worth in Chicago, freight off, but it didn't work. A certain man is suspected of the trick, but we are not sufficiently on to him to give his name.

Wheat is Worth \$1 Per Bushel

Any day. Where? At your home in biscuits made of our flour. So bring us your wheat and get 35 pounds of our "Alpine Snow" Flour and 10 pounds of Bran, or 37 pounds of flour for every bushel of wheat. You cannot make a mistake by trying this flour as we will guarantee every pound of it. Take it and try it and if you are not satisfied bring the flour back and we will give you your wheat back. Is not this fair enough? Also, we make the best granulated corn meal to be had and take one-sixth for grinding and will give the same guarantee we give on our flour.

COAL!

We will take all kinds of farm products in exchange for coal, and since the winter has been so mild we have contracted for more coal than we should have and now must sell it **Regardless of Cost.** We make a market for your wheat, hay and corn, &c., by exchanging it for coal and we must dispose of our coal in this market in return. You will always find our prices lower than the lowest. Now is the time to haul coal and bring in your farm products before you get busy with plowing. Give us a trial.
